

William A. Hill, DVM, MPH, DACLAM, CPIA
Director and Attending Veterinarian
Laboratory Animal Resources

William Hill serves jointly as LAR Director and Attending Veterinarian. Dr. Hill has direct program authority and responsibility for FSU's Animal Care and Use Program. Laboratory Animal Resources (LAR), a service entity of the Florida State University Office of Research, is responsible for care of all vertebrate animals used in teaching and research across the University. Laboratory Animal Resources is dedicated to advancing the teaching and research missions of the University by maintaining exemplary standards of animal care and providing exceptional support in the use of laboratory animals.
