Completing the GAP Pre-Proposal

The GAP pre-proposal is a short preliminary application (2-3 pages maximum) to outline the details of an FSU project to be considered for inclusion in the GAP program.

Once this pre-proposal is completed by filling out the document below, it will be evaluated by a group of business professionals who will assess the application's commercial merit to determine acceptance for the next round of GAP. This application is straight forward and should take a short time to complete. Before you complete this application, please review the pre-proposal EXAMPLE that is available on the Office of Commercialization's GAP website page, found here: <https://www.research.fsu.edu/research-offices/oc/gap/>.

You should send a completed copy of this pre-proposal to Michael Tentnowski at mtentnowski@fsu.edu on or before **Friday, September 30, 2022 at 5:00PM**.

If your pre-proposal is accepted as one to be included in this round of the GAP program, you will be notified by the FSU Office of Commercialization with details about the next steps in participation.

Note: All pre-proposals that advance to the next round must be IP protected. If you have not secured protection, please see a Licensing Manager in the Office of Commercialization for assistance.
